

The radio station K-LOVE has been of great service in our community. It provides uplifting and encouraging words and music. It is one of VERY few stations that we listen to all the time. If K-LOVE were to be displaced then we would lose a superb station that entire families can enjoy together. There is nothing offensive in the talk and music on K-LOVE. Having a station like that is in the public interest because there is nothing offensive or violent or degrading on the station. Our young children can listen and I don't have to worry about their hearing lousy music or commercials for offensive things. Thank you for reading my comment.
